Helping The Industry Set New Standards

Maritime Leader in STCW Training

The Maritime Skills Academy has been a maritime leader in STCW training since 2016.

Providing delegates near and far with the necessary training to work at sea.

Supporting Businesses and Delegates Alike

As an approved MCA, Bahamas, GWO, and Nautical Institute recognised centre, we are as proud to be meeting the high standards of commercial operators as we are in supporting individuals to maintain and build their professional development.

Flag State Accredited

We offer flag state recognised courses to over 5,000 delegates annually.

World-Class Facilities

Complete your STCW, Fire, or Simulator Training at one of our world-class training centres.

Complete Training Management

Offering support for all training needs, including flights, transfers and accommodation.

Our Locations

With training centres in Portsmouth, Dover and Gibraltar, we offer flag state recognised courses to over 5,000 delegates annually.

These courses are taught by our in-house experts, who each have experience in the maritime industry.

1 to 5-day sessions available

Medical Training

Manila, Philippines

Courses cover

Tailored Operational Fire Fighting
(built around your company procedures)
3 to 5-day sessions available

Our Training

Simulator Courses

Our simulation courses are 100% tailored to your needs and procedures. A full consultation prior to training will take place to understand areas of focus or concern, sailing areas, procedures and to build a full training programme.

Our ship library provides us with similar vessels to your fleet (size and propulsion) or you can choose to invest in your own exact ship model. We can offer favourable pricing due to our Wartsila partnership.

STCW

You can choose to put officers and crew on your own closed group sessions, or the calendar scheduled courses which run throughout the year. This is normally depending on numbers and logistics. All of our STCW courses meet flag state approval and go over and above the minimum requirements .

Operational Fire Fighting & Damage Control

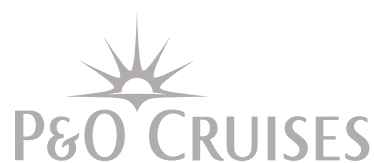

The emphasis in understanding the core training focus is key and is discussed during the consultation phase, prior to any training commencement. This will be done in collaboration with our expert instructors, so the aims and objectives are met. We focus on any procedures, areas of improvement, or concern.

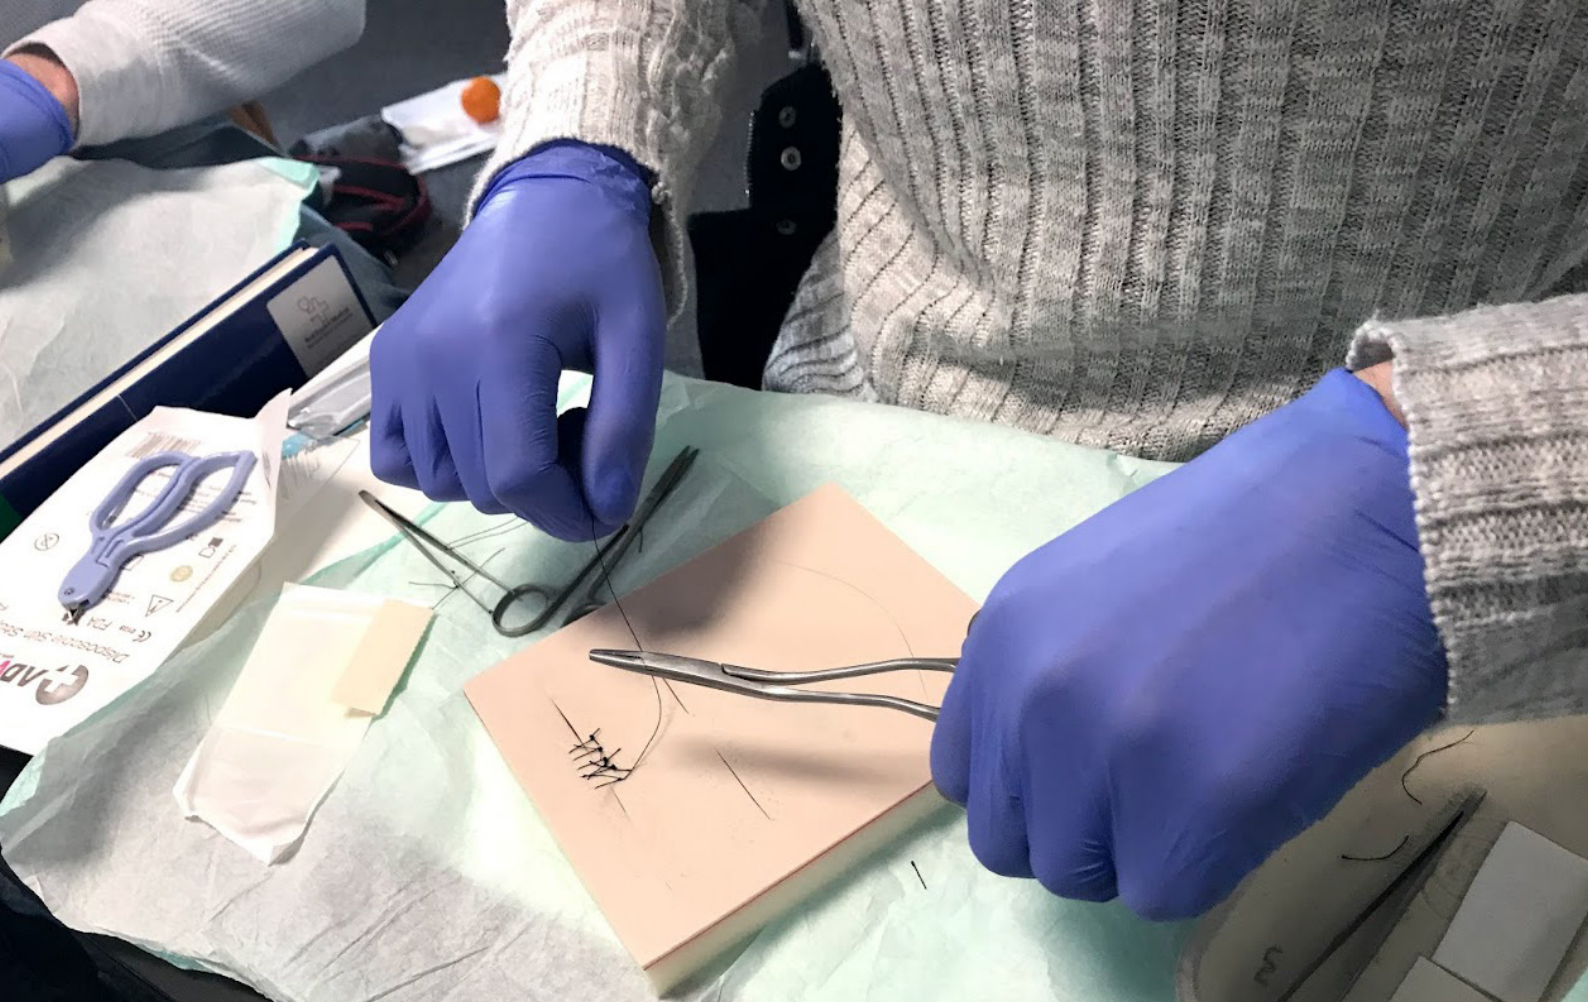

Onboard Training, Assessment & Audits

With our expert team of instructors, seafarers and HR specialists, we are able to provide various areas of consultancy that will benefit the safe operation of your vessels. Areas include:

- Accident investigation
- HR and policy creation
- Safety Procedures advice and design
- Safety Audits
- Port Studies
- Research and development for vessel models
- Independent officer and crew skill set assessments

A Selection of Our Clients

Our Partners

We strive to give operators and delegates the highest standards of training in the maritime industry. Partnering with specialist providers, we can bring expert knowledge and dedicated instructors to our training.

Red Square Medical

Red Square Medical support seafarers with a tailored medical service that prepares, protects and makes sure that you are covered for every eventuality.
