

Marine Pilot & Crew Transfer Ladder Training Endorsed by UKMPA

This course is proudly endorsed by the UKMPA and provides essential knowledge and practical skills to ensure safe and compliant pilot transfers at sea. It is ideal for pilots, deck officers, crew members, and safety personnel involved in pilot transfers.

Course Highlights:

Overview of SOLAS, IMO, and international regulations for pilot ladder safety

Best practices for rigging, securing, and maintaining pilot ladders

Risk assessment and hazard mitigation for challenging conditions

Emergency response techniques (MOB) for incidents during transfers

Real-world case studies and hands-on practice with pilot ladder equipment

Practical transfers over water – 3m ladder climb

Survival techniques

Delegates will leave this course with a solid understanding of:

- Safe working practices to protect both crew members and marine pilots during transfers
- How to identify and rectify defects or deficiencies in pilot ladder equipment
- Strategies for managing emergencies during pilot transfer operations

Location MSA Dover

Duration 1 day

Cost £380 incl.VAT
