

Polar Code Training (Basic)

Bahamas Maritime Approved

Our Bahamas Maritime Authority approved Basic Polar Code training course follows the STCW and IMO guidelines on safely operating a vessel in Arctic and Antarctic waters.

Course objectives

Learn about polar water regions, where ice is found and related seasonal changes

Understand vessel preparedness and response to emergencies in polar waters

Ensure compliance with pollution prevention requirements

Understand how to use international and regional regulations and codes whilst operating in polar waters

Apply safe working practices

Our training programme has been developed by experienced Ice Captains and Ice Pilots, who are recognised leaders in the industry.

Location Onboard your vessel or at MSA Dover

Duration 4 days

Cost £1,863.00 per person

Onboard Cost plus accommodation, flights and expenses (minimum 4 people)

+44 (0)300 303 8393
